PE2EVO gladly confirms our 2 way QSO as stated below in the CPR code of the I.A.R.C.
Because our station is intended for experimental use on all amateur wavebands we will be happy to meet you often. During the celebration of the 75-year jubilee of the Philips Company, PE2EVO will be operated from the permanent exhibition building "EVOLUON" in Eindhoven. Troughout the whole jubilee year **1966** the station will be **on the air 24 hours a day.** Amateurs in all parts of the world are invited to contact the station during this year. PE2EVO may even have pleasant surprises for some lucky amateurs who cooperate. If we receive your QSL card it will be included in the collection on exhibition in the EVOLUON building. Will you come and see it yourself after October 1st 1966 ? On presentation of your QSL card we shall be happy to take you round the show as our guest.
